¹ The total cost of the project should be net of VAT and/or other taxes. Should this not be the case, the amount of VAT and the reasons why it should be considered eligible should be clearly indicated (see Section 7.6)

2.1 Overall Objective:

To contribute to the protection of intellectual property in Albania at a similar level to that of the European Union, defining a period up to four years to meet this obligation

2.2 Project purpose:

Strengthening and enforcement of the capacities of the Albanian Copyright Office and Regional Copyright Offices and their partners, in the chain of the institutions which have responsibilities and commitments in the process of respecting and protecting copyright

2.3 Link with AP/NPAA / EP/ SAA

The Stabilisation and Association Agreement (SAA) between the Government of Albania and the European Community was signed in June 2006. This project's intervention field is in line with the objectives set out by this Agreement, in particular Article 73 and Article 39 of the Interim Agreement (Intellectual, industrial and commercial property). According to this article, the Parties confirm the importance that they attach to ensuring adequate and effective protection and enforcement of intellectual, industrial and commercial property rights.

The short and medium term priorities for Albania in the process of European Integration are outlined in the **European Partnership document**, and for the Copyright Office this project should take in consideration the following short and medium term priorities. This Office should undertake different measures in order to fulfil national obligations regarding the EU Integration Process. It should prepare a national strategy and an action plan for further legislative developments and strengthening of intellectual property rights, strengthen the administrative capacity for protection of IPR. Intensify enforcement against piracy and counterfeiting, further increase awareness of IPR issues amongst the business community and law enforcement bodies, including the judiciary.

The main goal of the Copy Right Office is to guarantee copyright protection through the establishment and functioning of Albanian Copyright Office as a leading Institution responsible for the protection of these rights. These obligations are addressed in the **National Plan for the Implementation of the Stabilization and Association Agreement**. In this document legislative initiatives and implementing activities to fulfil these obligations are foreseen such amendment of the existing law on copyrights, public awareness campaign, strengthening cooperation with other institutions, in order to implement the National Strategy on Intellectual Property, etc. A detailed list of these activities and legal initiatives is included in Annex 4.

2.4 Link with MIPD

According to the MIPD Document, Under section 2.2.3.3 "Programmes to be implemented" capacity building for the Directorate of Patents and Trademarks and Intellectual Property Rights implementation and enforcement agencies and strengthening of the IP legal environment. Capacity building to the establishment and functioning of the Albanian Office for Copyrights and related legislation is foreseen. Such support would help the improving of the institutional set-up of key market

actors, among them the Office for Copy Rights, as foreseen under point 2.2.3.2 “Expected results”

2.5 Link with National Development Plan

Significant part of the National Plan for Development and Integration is the National Strategy of Culture. In this strategy the Copyright field is divided in short, medium and long term measures. ACO has decided to introduce as a priority, in the National Strategy of Culture of the Republic of Albania the control and strict observation of market for civil exchange and circulation of intellectual product, registration and certification of any right of intellectual product home-brew or stranger, emphasis of authority of law` force through the administrative counterfeit ascertainment, penalty, and prevent of its iterance, coordinate, according to an organization in consonance with the legislation into force to all the national executive institutions of law, as are NCRT, taxation and customs bodies, accusation organ, etc of economic operators as producer and user, which enjoyed the exploitation right, of benefit operators of protection of intellectual product.

3. Description of project

3.1 Background and justification:

Albanian Copyright Office is a new institution; established during March 2009, based on Law Nr. 9380, date 28.04.2005 “On Copyright and Related Rights”. The establishment of this institution was foreseen under this law, but was as well as result of an urgent need to fight the wide spread piracy in the country. The staff of Albanian Copyright Office is composed of 7 lawyers and the other part is supportive structure (international relations/ public relations and finance).

Copyright situation in Albania, is not considerably improved. The awareness of the economic operators regarding exercising and protecting the intellectual property in Albania is still very low. This cause the non-respecting and non-payment of the copyright for the works used in the market. There is a small part of the community of users of artistic property who are ready to pay for the artistic property they use. The major part of them refuses to respect the law. The community of authors themselves is not sufficiently sensitized on the benefits they can have if the law is duly implemented and respected. The major problem remains awareness of the community of authors, owners of artistic property and users of their property and the low level of information on the law between the community and the state structures which are involved in the process of respecting and protecting copyright in Albania.

The institutional collaboration, between the institutions which are part of the national system which have responsibilities on the implementation and enforcement of the law on copyright, remains weak. Despite of the fact that ACO has initiated and signed understanding memorandums with the National Council of Radio and Televisions, General Directory of Taxes and General Directory of Customs, still concrete actions are missing. The lack of judges and prosecutors, specialized to judge and analyze the cases of infringement of author’s right, remains a problem (a considerable number of these cases conclude not in the favor of the authors)

Under these conditions a technical assistance under CARDS 2006 a budget of Euro 0.5 million for Albanian Copyright Office was approved. These funds have not yet been allocated to the Albanian Copyright Office. This project is linked with the approved project by CARDS 2006, which is conceived to be realized for Awareness and Information on the law. This project will be implemented during 2008 and it is conceived to be realized through: wide sensibility campaigns/ workshops with the different categories of authors and representatives of all the categories of state structures and private entities which are involved in the process of respecting a protecting copyright in Albania/ publications/ etc.

Nevertheless, there remains the need for the Office to raise the awareness between different categories of actors and factors, involved in the process of respecting and protecting copyright in the Republic of Albania. This goal can be achieved through wide sensibility campaign, workshops and seminars, different publications addressed to each of the categories of users and owners of IPR. These are supposed to be realized during 2008.

After this first stage it remains crucial the enforcement of the law. Drafting an action plan with the state and private institutions involved in the process of respecting and protection copyright. The beneficiary institutions which should be involved in project implementation are;

- Albanian Copyright Office
- Regional Offices on Copyright
- Judiciary system (judges)
- Prosecutors' offices
- General Directory of Customs and their branches in the country
- General Directory of Taxes and their branches in the country
- National Council of Radio and Television
- Directory of the economic crime (Ministry of Interior Affairs)
- Agencies of Collective administering of Authors' rights
- Authorities of local power

In the conditions that during the end 2008 and 2009 will be established regional offices for copyright, it is necessary training of the staff of ACO and these local branches. August – September 2008 will be prepared the Decision of Council of Ministers on Setting up the Regional Copyright Office in 11 Districts of Albania such as Shkoder, Elbasan, Vlore, Gjirokaster, Korce, Berat, Durres, Lezha, Dibra, Kukes and Fier. They can be functional during 2009 because the state budget can be operational only in the beginning of 2009.

Establishment of collaborative cores in the districts of Albania with the participation of experts from the Customs, Taxes entities, Judiciary and prosecutors, inspectors of the economic crime Department, State police etc, aiming a better coordination of the operations in this field.

Public awareness is also very important. Raised awareness of the community of authors themselves and of the users of their artistic property, will give positive impact to the improved level of protection of copyright. The twinning light project on strengthening of enforcement capacities of copyright, comes as a logical step, after realizing the up-mentioned project on the awareness and information on the law.

3.2 Assessment of project impact, catalytic effect, sustainability and cross border impact (where applicable)

The project will have positive impact in further strengthening of the staff of ACO, and regional copyright offices, as well as strengthening of the experts of other state institutions, which are involved in the process of respecting and protecting the copyright.

3.3 Results and measurable indicators:

Component 1: Trainings on general issues of copyright and enforcement of the law

Result: Trained staff of ACO on enforcement issues (10 people) (3 days training in Tirana)

Measurable Indicators

- 10 people trained from the expert for 1 day on general issues of copyright
- 10 people trained for 2 days on enforcement issues of copyright

Indicators should be assessed in the following way:

There is a database (register) of the right holders, contracts of right transfer, object of the activity (obligations deriving from the Albanian Copyright Law) registered in ACO.

Database of the National Centre of Registrations (NCR) form which it results that 10.000 subjects (approximate number) are activities which includes use of intellectual product

Verifying from each of the regions how much is decreased the number of non-registered activities and how much respectively is increased the number of the registered ones.

Result: Trained staff of the regional copyright offices (3 persons from each of the regional offices in Shkoder, Elbasan, Vlore, Gjirokaster, Korce, Berat, Durres, Lezha, Dibra, Kukes and Fier – in all 33 people) (3 days training in Tirana)

Measurable Indicators

- 33 people trained from the expert for 1 day on general issues of copyright
- 33 people trained for 2 days on enforcement issues of copyright

There is a database (register) of the right holders, contracts of right transfer, object of the activity (obligations deriving from the Albanian Copyright Law) registered in ACO.

Database of the National Centre of Registrations (NCR) form which it results that 10.000 subjects (approximate number) are activities which includes use of intellectual product

Verifying from each of the regions how much is decreased the number of non-registered activities and how much respectively is increased the number of the registered ones.

Result: Trained experts of state institutions which are charged to deal with copyright. (Customs, Taxes offices, NCRT, police, courts, prosecutors, etc) (3 days training in Tirana)

Measurable Indicators

- 12 districts x 10 persons (each district) – 120 persons trained on copyright issues (1 day).
- 12 districts x 10 persons (each district) – 120 persons trained on how to coordinate activity between each other (2 days).

There is a database (register) of the right holders, contracts of right transfer, object of the activity (obligations deriving from the Albanian Copyright Law) registered in ACO.

Database of the National Centre of Registrations (NCR) form which it results that 10.000 subjects (approximate number) are activities which includes use of intellectual product

Verifying from each of the regions how much is decreased the number of non-registered activities and how much respectively is increased the number of the registered ones.

How much is increased the number of the fines collected by taxation authorities?

How much is increased the number of the court cases resolved in favour of the authors or the right holders?

Component 2: Drafting of the Action Plan and coordination between regional offices

Result: Action plan drafted with concrete steps aiming coordination of work between these institutions.

Measurable indicators:

- Action plan drafted
- Information meeting organized in Tirana;
- 32 persons trained

3.4 Activities:

A Twinning Light contract is foreseen under this project on the following basis:

Component 1: Service contract to provide training on general issues of copyright and enforcement of the law

- 3 days training in Tirana with the staff of Albanian Copyright Office (10 people trained)
- 3 days training in Tirana with the staff Regional Copyright Office (33 people trained)
- 3 days training in Tirana with the experts of state institutions which are charged to deal with copyright (Customs, Taxes offices, NCRT, police, courts, prosecutors, (120 people trained)

Component 2: Service contract for drafting of the Action Plan and coordination between regional offices

- drafting an action plan with the activities that each institutions shall realize.
- 1 day meeting in Tirana with the people working in Albanian Copyright Office and Regional Copyright Offices (32 people at all); the meeting shall conclude with a document (action plan)

3.5 Conditionality and sequencing:

Regional Offices are established on time and the adequate enforcement of copyright is assured by the judiciary.

3.6 Linked activities:

Establishment of regional copyright offices is an obligation deriving from the law on Copyright and Related rights, and the period end of 2008 and during 2009 is defined in the

National Plan on the Implementation of SAA. Their establishment will be supported by the state budget of the Ministry of Culture.

The activity has a preparatory phase. Preliminary the head of the office or authorised by her persons will contact with the directors of the state structures which will be involved in the activity, in order to agree with them in general for the activity and to have the respective experts appointed by them.

Until now Albanian Copyright Office has received two experts visit supported by TAIEX/EU concerning revising the Albanian Legislation in the field of Copyright and related Rights.

3.7 Lessons learned

A general report will be developed on each phase of the project, on its impact and the duties that have each of the beneficiaries participated in it.
